“With over 40 years experience and using raw materials from our own 5 quarries you can be sure that our products meet the highest quality standards. We are delighted to present an extensive portfolio of decorative products for the home and garden designed with you in mind to complement both contemporary and traditional settings alike.”
Mountcharles Sandstone

Mountcharles Sandstone Paving is quarried locally and one of our most popular sandstones. Extremely versatile, it is suited both internally & externally. Its consistent warm sandy buff tones look stunning in any environment whether traditional or modern, ideal for patio areas, courtyards, footpaths and also used in stepping stones.
Quarried locally, McMonagle Quartzite Sawn Paving can be used internally or externally. This paving is characterised as being exceptionally durable with an enormous flexural strength, low water absorption, high thermal properties with excellent resistance to acid rain, frost and air pollution as well as its suitability for heavily trafficked areas. The surface is riven with a high slip resistance. The blend of colour tones makes it distinct from all other stone varying from warm golden browns to cool blue grey tones.

Donegal Quartzite Polygonal Paving is perfect for use when creating pathways with a difference. Polygonal Paving is made up of random sizes with a wide variation of colours, which means that Donegal Quartzite Polygonal Paving is capable of enhancing any garden or patio area. This material is hand split and carefully selected in various sizes between 15-25mm and 25-40mm in thickness.
Donegal Quartzite Polygonal Paving
McMonagle Quartzite Polygonal paving (also known as Crazy Paving) is quarried locally and is known for its durability and excellent resistance to acid rain, frost and air pollution as well as its suitability for heavily trafficked areas. It is perfect for use when creating pathways with a difference, enhancing any garden or patio area and is made up of random sizes with a wide variation of colours, ideal for internal or external use.

Silver Granite Paving
Granite is one of the oldest, most durable and most respected of building materials. Traditionally, it is the material chosen by both architects and engineers when permanence, endurance of colour and a safe, non-slip texture are of the essence.
Black Limestone Paving
An attractive durable Limestone. Black Limestone Paving has a variable subtle riven texture. This stone is jet-black when wet, but dark grey to black when dry.

Please note: this is one of the few natural stones that will fade with weathering. To protect and enhance the natural colour, we recommend the surface of this material to be sealed to help protect the colour.

Blue Limestone Paving
Blue Limestone Paving (Flamed Finish) has an attractive light colour with a slightly textured finish giving it a good slip resistance.
Raj Green Paving

Raj Green Paving, which is one of our most popular sandstones, has a rich mix of cool green and grey autumnal colours with gentle hues of golden brown running through the natural riven paving that will complement any garden space. Calibrated to a thickness of 22mm.

Extremely versatile, it is ideal for Patios, Paths & Courtyards. Raj Green is perfect for the Irish Climate and is frost resistant, it will weather extremely well. Suitable for Internal & External use. Steps available to complete the theme.

Modak Paving

Modak is a stunning combination of warm pink and orange tones. Its base is pink with some subtle shades of cream and beige. This splash of colour will brighten up your garden all year around. Calibrated to a thickness of 22mm.

The paving slabs are accurately hand dressed with a natural riven surface, creating an extremely hard wearing and durable natural paving stone, and are perfect for both traditional and contemporary designs, they can be laid internally and externally enabling a natural transition from home to garden.

Suitable to the Irish climate, natural sandstone paving slabs are frost resistant.
Autumn Brown Paving
Autumn Brown Sandstone Paving is a combination of neutral shades of light and dark browns with a mixture of plum and grey tones. It is one of the more consistent colours we have available. Calibrated to a thickness of 22mm.

T Grey Limestone Paving
T Grey Limestone Paving has a contemporary feel to it, as it has beautiful light grey and blue tones running through it with a smooth riven surface. Calibrated to a thickness of 24mm.

Our T Grey Limestone paving product has been used extensively by award winning architects and landscape designers.

Ideally suited for internal and external areas such as flooring, patios, courtyards and garden paths, it allows you to bring home that special look and with its low abrasion values, high durability and high frost resistant properties you can be sure it will last for generations to enjoy!
Camel Dust Paving
Camel Dust Paving is a relatively light toned, riven paving. Varying in colour from cool silver tones to warmer, richer pink and sun baked terracotta. With curving stripes of colour, running through individual slabs, this is a beautiful and striking choice. Calibrated to a thickness of 22mm.

It is a very stable product and one of the best suited natural stones for use on patios, paths and courtyards. Suitable for Internal or External use.

Gold Granite Paving
This beautiful, hardwearing paving is ideal for patios, footpaths, wall cladding or even wall capping. It is widely used in commercial and domestic projects. The oatmeal brown/gold colours will blend with other earthy colours to give a natural look.

The beauty of using Granite as an internal or external option, steep or flat driveways, pool coping or step thread is that it is virtually maintenance free. The textured finish provides an excellent slip resistance.
Indian Grey sandstone paving slabs are accurately hand dressed with a natural riven surface, creating an extremely hard wearing and durable natural paving stone, ideal for use on high traffic areas including patios, paths and courtyards. This is a more consistent choice of the colours available and perfect if you are looking for an unfussy classic look. Calibrated to a thickness of 22mm. Steps available to complete the theme.

Tinted Mint is beautiful natural riven sandstone with a mixture of yellow, buff, pink, and golden colours. Hand cut to a thickness of 25-40mm. It is an extremely durable product suitable for internal and external use, ideal for flooring, pathways, courtyards and pool surrounds. Tinted Mint paving will bring colour and style to your home or garden.

Tinted Mint is also available in calibrated finish - The riven top and edge detail is exactly the same as our standard range of Tinted Mint paving, however being a constant thickness, it is much easier to lay, easier to handle, easier to cut generally saving time and effort. Calibrated to a thickness of 22mm. Steps available to complete the theme.
Kota Brown Paving
Kota Brown Limestone is a fresh rustic pale brown colour with pale green to grey tones & a natural smooth riven finish suitable for traditional and classic garden designs. Kota Brown paving is known for its durability and beautiful appearance. The speciality of this limestone is in its hardness and it can be used both for interiors as well as exteriors.

Revina Paving
Revina Sandstone Paving is a combination of warm pink, purple, grey and terracotta tones. Perfect for those who would like a splash of colour in their patio. Calibrated to a thickness of 22mm.
Circles

Circles are a perfect way to add variation to any paved area, adding interest to your garden landscape.

Circles are available in Tinted Mint Sandstone, Grey Sandstone, Silver Granite & Gold Granite.
Setts

Setts (or cobblestones) when laid are stunning and make superb paths, patios and driveways. They will last for many, many years. Featuring in a range of colours and sizes to suit almost any surroundings, domestic or commercial. All our Setts are hand cut to give a natural texture. Setts are available in two sizes, 100mm x 100mm and 200mm x 100mm.
Steps

Steps can give your garden another dimension and with our excellent selection of various colours and finishes are the perfect way of bringing two areas together.

We can create individual bespoke steps to suit your requirements. If you supply us with precise dimensions, we will design a step to fit your front door in whichever type of stone you wish to use.

Kerbing & Edging

Choose from our wide range of Kerbing to add the finishing touch to your paved area.

Our decorative borders are suitable for curved areas & are highly durable, they are ideal for home or commercial application. Adding McMonagle Stone kerbing will create a professional appearance adding value to your property.
Sandstone Kerbing

Mountcharles Sandstone Kerbing offers an alternative to traditional edging products. The short length of the kerb also makes it ideal for curved work. This Kerbing has split finish to all sides.
